

Cabling. Power. Security.

Capability Statement

Your business of tomorrow, today.

COMPANY DATA

Cabling. Power. Security. Since 1982.

We are a one-stop, nationwide provider for unparalleled electrical services and full scope technology services such as data security, surveillance, access control, fire alarm, riser management, and voice & data.

Our BICSI Certified Technology technicians, coupled with our ISO 9001:2015 certified quality management system ensures high standards of work and care on every project.

MISSION

Our mission is to provide high technology products and superior services that consistently exceed our customer's expectations. As a service-focused organization leading the industry in customer satisfaction, we strive to provide the same high standard of customer care to ALL companies.

CORE COMPETENCIES

Quality Electrical Services:

Electrical Service and Maintenance, Electrical Construction, Lighting, Data Centers.

Full Scope Technology Services:

Technology Service and Data, Security, Access Control & Fire Alarm, Audio Visual Technology, Riser Management, and Voice & Data.

- We also offer service and support contracts for all our installations.
- CPSE team members are experts in all of the products and services we represent.
- We offer the latest in technology with our BICSI Certified team of professionals on staff keeping their training current at leading industry schools. As well as industry best practices for installation, service, and support.

DIFFERENTIATORS

- ISO 9001:2015 certified quality management system and BICSI Certified Installation technicians.
- The latest in network testing equipment starting with the new Fluke DSX 5000 Cable Analyzers in every CPS truck.
- 35+ Years in business as a National Service Provider
- CCNA certification – networking for supporting LANs, security, cloud, collaboration, security operations, design, data center technologies, industrial plants, service providers, and wireless.
- Microsoft Certified System Engineer personnel with proven expertise of Microsoft Windows NT operating system, related desktop systems, networking, and Microsofts BackOffice server products.

"I have used CPS several times for all of my computer and telecommunications cabling needs. On completion of the first job they ever did for me, I was very satisfied and extremely happy to receive everything that I was promised in the quotation – plus an excellent cabling job. I have never been disappointed from that first job to my last."

– Dave Galbo, Information Services Manager, A.L. Hansen Manufacturing

"After looking at several companies, we determined that CPS would provide our school district with the best installation and services. It was one of the best decisions that we have ever made! Every single person involved in the installation was excellent and the installation was flawless... Yes, flawless."

– Dale Harkness, Tech Services Director, Richmond-Burton High School
